

# Breathe life into your engine...

PROTEC

## ENGINE FLUSH

- ★ Can be used in all petrol and diesel engines, also suitable for manual gear box & differentials.
- ★ Removes all operationally caused impurities and resin from the complete oil and lubrication system.
- ★ Removes residues in the piston ring and upper cylinder areas.
- ★ Neutralizes damaging engine acids.
- ★ Can be disposed of without any problems together with the waste oil.

### Results

- ★ New, fresh oil in a clean engine.
- ★ Reduced oil and fuel consumption.
- ★ Improved engine performance.
- ★ Less wear on the assemblies.
- ★ Lower exhaust emissions.
- ★ Longer life-span of the catalytic converter.

PROTEC

## FUEL LINE CLEANER

- ★ Is used in all petrol motors. Recommended for vehicles with catalytic convertors, turbo charges fuel injection systems.
- ★ Removes lasting operational caused contamination within the complete fuel system from the tank up to the combustion chambers.
- ★ Removes resins and stickiness in the fuel injection system.
- ★ Removes coking residues and soot deposits in the complete upper cylinder area
- ★ Keep the valve performance constant.

### Results

- ★ Clean, strong combustion.
- ★ Improved motor performance and reduced fuel consumption
- ★ Protects from rust and corrosion.
- ★ Enormous reduction of exhaust emissions.
- ★ Functional guarantee for a high catalytic convertor life span
