Dear Neil

I thought I would write to you as we have been using Protec Fuel Line Cleaner for nearly 12 months, and to tell you how successful we have been with it.

We use the product on all routine services and find that there is no adverse customer reaction to this.

The Diesel Fuel Conditioner is also used on all services and M.O.T. smoke testing failures, with a fairly high success rate.

I have no hesitation in recommending these products to other Ford Dealers.

Yours sincerely

A handwritten signature in black ink, appearing to read 'Norman Graham'.
